

PAVAN BR

Address: CMR Institute of Technology Boys Hostel, 123 IT park,
AECS Layout, Kundalahalli, Bengaluru - 560037

Mobile Number: +91 9480850001

E-mail ID: pabr23cs@cmrit.ac.in / pavanbr96@gmail.com

LinkedIn: <https://www.linkedin.com/in/pavan-br-a93b0b381/>

GitHub: <https://github.com/pavanpbbr1604-png>

Leetcode: https://leetcode.com/u/pavan_b_r/

CAREER OBJECTIVE

Aspiring Software Developer and AI Engineer with a strong passion for problem-solving, coding, and building innovative solutions. Skilled in software development, algorithms, and artificial intelligence. Committed to contributing to cutting-edge projects by applying technical expertise. Eager to learn, grow, and collaborate in dynamic team environments, known for creativity, adaptability, and positive team spirit.

EDUCATION QUALIFICATION

- **Bachelor of Engineering- in Computer Science and Engineering**

CMR Institute of Technology, Bengaluru

CGPA: 8.26, 2027 (Pursuing)

- **12th Standard- Science**

Jnanadeepa Senior Secondary School, Shivamogga

Percentage: 95, 2021

- **10th Standard**

Jnanadeepa Senior Secondary School, Shivamogga

Percentage: 85.4, 2019

TECHNICAL SKILLS

- **Programming Languages:** Python
- **Operating System:** Windows, Ubuntu
- **Database:** MySQL, NoSQL
- **Web Technologies:** HTML, CSS
- **Version Control:** Git, GitHub

PROJECTS

- **Crowd Density Estimation using Multi-Perspective Image Analysis**
 - Developed an AI-powered crowd analysis system to estimate crowd density, detect people, and classify crowd levels using multi-perspective image analysis.
 - Implemented YOLOv8x and OpenCV for high-accuracy person detection with preprocessing, sliding-window inference, and reliability-based crowd estimation.
 - Built a multi-perspective fusion pipeline to combine detections from multiple camera views and reduce duplicate counting.
 - Integrated SQLite to store analysis history and crowd statistics for future retrieval and reporting.
 - **Tech Stack:** Python, Flask, YOLOv8x, OpenCV, HTML, CSS, JavaScript, SQLite.
- **Full Stack Web Application - Electronics Store & Repair Service Platform**
 - Developed a full-stack web application integrating online electronics shopping and repair service booking into a single responsive platform.
 - Built a responsive frontend using HTML, CSS, and JavaScript with dynamic product browsing, shopping cart, and service booking features.
 - Implemented backend functionality using PHP for user authentication, order management, service booking, and administrative operations.
 - Developed an Admin Dashboard to manage orders, payments, user activity, and service requests.
 - **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL.
- **Weather Forecasting using LSTM**
 - Built a deep learning model using Long Short-Term Memory (LSTM) networks to predict weather conditions based on historical time-series data.
 - Preprocessed data through normalization, handling missing values, and feature engineering for improved model accuracy.

- Evaluated performance using regression metrics (MAE, RMSE, MSE) and visualized results to compare actual vs predicted weather trends.
 - Demonstrated potential of AI-driven forecasting for real-world applications in climate analysis and decision-making.
 - **Tech Stack:** Python, TensorFlow/Keras, NumPy, Pandas, Matplotlib, Scikit-learn.
 - **Cell Phone Detector**
 - Designed and developed a hardware and software-based mobile phone detection system leveraging RF components and microcontroller integration
 - Built real-time device detection and alert mechanisms using circuit design tools.
 - **Tech Stack:** Android Studio, RF Components, Microcontrollers.
-

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES

- **Hackathons**
 - Participated in Department-level DSA Hackathon conducted by CMR Institute of Technology, Bengaluru
 - Participated in the Full Stack Fiesta: Innovate, Build and Deploy Hackathon 2025 at CMR Institute of Technology, Bengaluru
 - **Online Courses and Certifications**
 - Completed “The Python Bootcamp” from Udemy
 - Completed a course on topic Fundamental of Data Structures and Algorithms conducted by CMR institute of Technology, Bengaluru
 - **Sports**
 - Active Football Player
 - **Leadership and Additional Responsibilities**
 - Served as Boy’s Hostel Mess Committee Head (2024-2025)
-

AWARDS AND ACHIEVEMENTS

- Secured 2nd Place in Mini Project Exhibition (1st Semester) for developing “Cell Phone Detector”
 - Secured 1st Place in Mini Project Exhibition (2nd Semester) for developing “Advanced Cell Phone Detector”
-

PERSONAL DETAILS

Date of Birth : 16th April 2003
Gender : Male
Nationality : Indian
Permanent Address : “ANANYA” HIG 28/A,1st Main,2nd Stage, Kallahalli, Shivamoga - 577204
Linguistic Competency : Kannada, Telugu, Hindi, English
Hobbies : Listening to music, Watching movies and series, Drawing
